ACKNOWLEDGEMENTS

I wish to express my sincere gratitude and appreciation to all who contributed to the completion of this study. It would be impossible to acknowledge and thank each one individually.

My special thanks are due to my supervisor, Prof R J Botha for his expert advice, his profound interest in my progress and his friendliness.

I am also profoundly indebted to:

The library staff, particularly Mrs Danisile Motsatsi, for assisting me in obtaining the sources used in this research

Mrs Nhlanhla Ntshangase for assisting me with the interview transcript

My cousin, Dr M A Monareng for his continued encouragement and inspiration in my studies

All my friends and colleagues, particularly Lawrence Makgopa, Murphy Nkambule, Jabu Dlamini, Nokuthula Mthethwa and Dr T I Pudi for their encouragement and support during the study

Mrs D Muller for her patience and professionalism in typing the manuscript

Mrs lauma Cooper for professionally editing the manuscript

All the heads of department and the facilitator of the Whole School Improvement Workshop for participating in the interviews

My wife, Elizabeth and daughters, Katlego and Refiloe for their love, support and understanding during the study

My late parents for instilling a love of education in me

Above all, my Creator, the Almighty God for giving me the strength and perseverance to complete this study.

SUMMARY

The in-service management training of school managers, especially heads of departments in these constantly changing times, is an issue which is long overdue in South Africa. Numerous initiatives, such as the Canada - South Africa Education Management Programme, the Whole School Improvement Workshop and the Workshop for School Management Teams are in-service management training programmes in the Mpumalanga Province which are aimed at the upgrading of management skills of school managers such as principals, deputy principals and heads of department. The aim of this study was therefore, to determine the impact of these programmes on the performance of heads of department.

A literature study was conducted to give an overview of current in-service management training programmes in the Mpumalanga Province.

An empirical study was conducted through semi-structured interviews with key-informants to establish the impact of current in-service management training programmes, such as the Canada - South Africa Education Management Programme, the Whole School Improvement Workshop and the Workshop for School Management Teams on the performance of school heads of department.

Although these in-service management training programmes have some shortcomings, it was found that they played a significant role in the upgrading of management skills of heads of department and thereby improving their performance.
